Why Steve & Roger Should Be Your Agents

Steve Laevastu

Roger Turner

1.) Our objective in each and every transaction is to go above and beyond the call of duty for you. The goal is to satisfy you so much that you tell all your friends and neighbors what a great job we did.

2.) We work for the premier company in the business.

3.) Our track record in Maple Leaf. We list and sell more homes in Maple Leaf than any other agent.

4.) Experience. We have over 40 years of combined experience.

5.) Top producers. We rank among the top 1% of realtors on a production basis. This means we get results.

6.) We are both graduates from the University of Washington. We both have degrees in business administration.

7.) Passion for what we do. We love real estate!

8.) Nobody will work harder or smarter to market your listing than we will.

9.) You have two good experienced agents working for you instead of one.

10.) Personal performance written guarantee. If you ever become unsatisfied with our service for any reason we will unconditionally release the listing.

LAND USE NOTICES

The following are public notices of Seattle land use activities from the Department of Planning & Development regarding applications, decisions, and other actions affecting the Maple Leaf neighborhood.

Project Number: 3006087 Address: 850 NE 94th St
Zone: L2, NG

Land Use Application to subdivide one parcel into four unit lots. The construction of townhouses is being reviewed under Project #6091502. This subdivision of property is only for the purpose of allowing sale or lease of the unit lots. Development standards will be applied to the original parcel and not to each of the new unit lots.

Project Number: 3005720 Address: 9213 Roosevelt Way NE
Zone: L2, RC, NG

Land Use Application to allow a two-unit townhouse structure, a four-unit townhouse structure and a single family residence (for a total of seven units). Parking for seven vehicles will be located within the structures. Two existing structures to be demolished.

Project Number: 3004849 Address: 8926 Roosevelt Way NE
Zone: NC2 40', NG

Land Use Application to allow a four-story mixed-use building with 4,237 sq. ft. of retail at ground level, 4,420 sq. ft. of administrative office and five apartment units above. Parking for 17 vehicles will be located below grade. Existing retail building to be demolished.

Project Number: 3006005 Address: 9201 Roosevelt Way NE
Zone: L2, R/C, NG

Land Use Application to subdivide one parcel into two unit lots. The construction of townhouses has been approved under Project #6090223. This subdivision of property is only for the purpose of allowing sale or lease of the unit lots. Development standards will be applied to the original parcel and not to each of the new unit lots.

Project Number: 3005853 Address: 320 NE 97th St
Zone: NC3 65', NG

Land Use Application to subdivide one parcel into two parcels of land. Proposed parcel sizes are: A) 19,902 sq. ft. and B) 19,902 sq. ft. Existing structures on proposed Parcel A and proposed Parcel B to remain.

Washington 5th Home Price Gains As Appreciation Slows Across U.S.

Home prices in Washington increased 16.35 percent from a year ago, more than twice the national rate. Only Idaho, Utah, Arizona and Oregon outgained Washington.

Among 379 Metropolitan Statistical Areas (MSAs) or Metropolitan Divisions in the survey, Wenatchee, at number 5, was the highest ranking in the state. Seven other MSAs in the state were ranked on the top 30 list.

U.S. home prices rose in the third quarter of this year, but the rate of increase continued to slow and some areas experienced actual price declines. Nationally, home prices were 7.73 percent higher in the third quarter of 2006 than they were one year earlier.

Appreciation for the most recent quarter was 0.86 percent, or an annualized rate of 3.45 percent. This reflects a further slowdown from that reported for the second quarter when the quarterly appreciation rate was 1.3 percent and the annualized rate was 5.1 percent. The quarterly increase is the lowest since the second quarter of 1998. The figures were released by the Office of Federal Housing Enterprise Oversight (OFHEO) as part of the House Price Index (HPI), a quarterly report analyzing housing price appreciation trends.

"Our newest data confirm last quarter's data that the housing market is in a decidedly different stage," said OFHEO Director James B. Lockhart. "With U.S. house prices growing less than one percent during the third quarter, it provides more evidence that the long forecasted national deceleration in house prices is occurring. Given the five-year appreciation prior to this quarter of 56.8 percent, the slowdown is not unexpected. There are still some areas where appreciation rates remain very high but now they are the exception rather than the norm," Lockhart said.

Since the spring of 2004, year-over-year house price appreciation has fallen from a peak of 13.9 percent to 7.7 percent this quarter. Despite the deceleration, house prices grew faster over the past year than did prices of non-housing goods and services reflected in the Consumer Price Index (CPI). CPI prices rose 3.1 percent.

The findings of the third quarter HPI show varying trends in different parts of the country.

1. The quarterly appreciation rate fell in seven of the nine Census Divisions. The West North Central and East North Central divisions had small increases over weak second quarters.
2. Five states -- New York, Rhode Island, Michigan, New Hampshire, and Massachusetts -- saw price declines from the second to the third quarter of the year.
3. Michigan was the first state to show a year-over-year decline in more than six years. Prices fell in Michigan 0.6 percent between the third quarter of 2005 and the third quarter of 2006.
4. Appreciation rates remain at or near record-setting rates in areas affected by Hurricane Katrina. Baton Rouge, Gulfport-Biloxi, and Mobile all had their highest four-quarter appreciation rates ever with four-quarter price growth of 14.1, 23.3, and 17.5 percent respectively.
5. Idaho now tops all states with the highest four-quarter appreciation rate with prices 17.5 percent higher in the third quarter of 2006 than they were a year earlier. Other states with still large year-over-year increases were Utah (17.4 percent), Oregon (16.9 percent), and Arizona (16.4 percent).
6. Quarterly price declines occurred in more than half the cities in California. Fifteen of 25 California cities in OFHEO's list of ranked Metropolitan Statistical Areas (MSAs) and Divisions experienced price declines relative to the second quarter.

Steve Laevastu & Roger Turner are your EXCLUSIVE Maple Leaf Realtors

Here is what our clients have to say.....

Dear Windermere, Prospective Buyers and Sellers;

This year our family was faced with a job-related move. Just a couple of years earlier, we had found the perfect house with the help of Steve Laevastu. Steve had also helped us sell our home at the time. We were very pleased with our first experience and decided to call Steve again.

In both of our experiences with Steve, we were grateful for his excellence in marketing our home, representing us in negotiations and managing the many steps toward closing. Steve was always available, patient and enthusiastic. Moving a family is a stressful experience even if everything goes perfectly. Steve inspired confidence so that we could focus on packing, researching neighborhoods and finding schools.

We would certainly ask Steve to help us again with any real estate in the Seattle area. We would not hesitate to recommend him to family or friends.

Sincerely,
David Pereles.

Mr Roger Turner of Windermere/ Oak Tree Office

I have never written a letter such as this one before but felt the need to express our gratefulness to you for handling the sale of our property on Queen Anne Hill. We have sold quite a lot of properties in our lives but have never met a real estate salesman we felt we could really trust; we even had one forge our signature!!! In this case however, we feel that you gave us your all.

It took you five years-- our neighbor was the fly in the ointment. Your persistence and patience prevailed and you made the sale! Your willingness to continue trying in the face of such adversity impressed us as did your kind and gentle manner. Your dedication convinced us that you were truly a fine person with whom to deal.

We have one request and that is to exact a promise from you that you will remain as trustworthy, helpful, low-pressure and agreeable as you have been when working with us. Just remain the person you are now. Don't let those fast talking, high pressured salespeople with whom you undoubtedly come in contact with every day influence you. You are just fine as you are.

Most Sincerely,
Dottie & Jim Anderson

Our 2007 Business Forecast

- Business will continue to go where invited and remain appreciated.
- Reputations will continue to be made by many acts and lost by one.
- Go-givers will become the go-getters.
- The extra mile will have no traffic jams.
- Performance will continue to outsell promises.
- Enthusiasm will be as contagious as ever.
- Trust, not tricks will keep customers loyal.
- Quality will be prized as a precious possession.

We look forward to staying in contact with you in the year 2007. If you ever have a question or need my assistance regarding real estate, please call us.

"House prices continued to rise through the third quarter in most of the country, but generally at only low or moderate rates," said OFHEO Chief Economist Patrick Lawler. "The transition from sizzling markets to normal or weak markets has been orderly so far, and recent drops in interest rates lessen the likelihood that precipitous changes will occur."

OFHEO's House Price Index is published on a quarterly basis and tracks average house price changes in repeat sales or refinancings of the same single-family properties. Changes in the mix of data from refinancings and house purchase transactions can affect HPI results.

An index using only purchase price data indicates somewhat less price appreciation for U.S. houses between the third quarter of 2005 and the third quarter of 2006. That index increased 6.0 percent, compared with 7.7 percent for the HPI.

Yakima	73	10.60	2.23	29.92

OFHEO's index is based on analysis of data obtained from Fannie Mae and Freddie Mac from more than 31 million repeat transactions over the past 31 years. OFHEO analyzes the combined mortgage records of Fannie Mae and Freddie Mac, which form the nation's largest database of conventional, conforming mortgage transactions. The conforming loan limit for mortgages purchased in 2006 is \$417,000 and will remain unchanged in 2007 as announced on November 28.
